1. A trip is defined as all the driving done between consecutive "key-on" and "key-off" events when some distance was traveled.
2. Averages shown in this report are based on a subset of the total miles traveled.
3. Charging events at the "home charging location" refer to charging events performed at the location where the vehicle owner's home charging unit is installed.
4. Charging events at "away-from-home charging locations" refer to charging events performed at any location other than the vehicle's "home charging location."
5. Charging events at "unknown charging locations" were performed when the vehicle's location relative to its "home charging location" is not known, due to GPS data anomalies.

1. A trip is defined as all the driving done between consecutive "key-on" and "key-off" events when some distance was traveled.
2. Averages shown in this report are based on a subset of the total miles traveled.
3. Charging events at the "home charging location" refer to charging events performed at the location where the vehicle owner's home charging unit is installed.
4. Charging events at "away-from-home charging locations" refer to charging events performed at any location other than the vehicle's "home charging location."
5. Charging events at "unknown charging locations" were performed when the vehicle's location relative to its "home charging location" is not known, due to GPS data anomalies.
