³Operating costs includes insurance, fuel, and registration costs.
⁴Total ownership includes maintenance, operating, and capital depreciation.

Description of Vehicle Usage:
This vehicle is operated by various commercial vehicle fleets throughout the Southwestern United States covering a mixture of city and highway routes. This vehicle is operated five to seven days a week functioning as a typical vehicle in the overall fleet.

Monthly MPG = (miles driven)/(gallons of fuel purchased). Monthly variation in reported MPG may occur due to the difference in fuel tank level at the beginning and end of the month.

NOTE: The MPG has dropped sharply in July 2014 due to this vehicle being used for a Taxi Service in Phoenix, AZ.
