

## **APPENDIX D - TRAINING PROGRAMS**

In accordance with the *APS Safety Manual*, training programs have been prepared for the APS Alternative Fuel Pilot Plant. A video-based program has been developed to provide general information concerning the APS Alternative Fuel Pilot Plant. This program is used to provide general information concerning the facility to personnel working in the general area. A second computer-based training program has been developed to train personnel fueling vehicles at the APS Alternative Fuel Pilot Plant. This program includes a post-training test.

These training programs are available from Arizona Public Service.
